

How to make it work

Step 1

Start of the "Run". Take a screenshot in Diablo 3 where you mouse over the XP bar.

Step 2

End of the "Run". Take a screenshot in Diablo 3 where you mouse over the XP bar.

Tip: The "Print Scrn" key takes a screenshot in Diablo 3 or you can configure it via the options and key binding settings.

Step 3

Open the program with D3Test.exe and press the green button: "Load screens"

Step 4

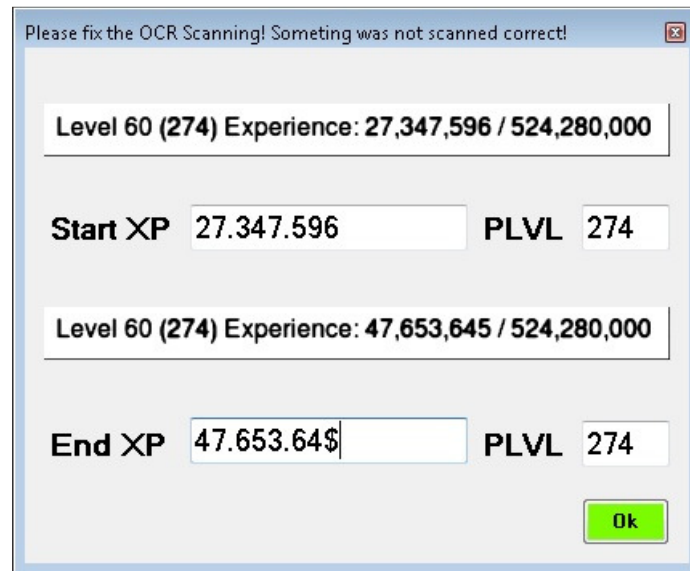

Read the result:

A screenshot of the "Diablo 3 XP Monitor - Version 2.0" application window. The window has a blue title bar and a light blue background. At the top, it says "Diablo 3 XP Monitor by Gombi" and "Patch 2.0.1.22274". There is a "Donate" button. Below this, there is a "Selected Run" section with a table showing Start XP, End XP, Start Time, End Time, Run XP, and Run XP/Hour. Below that is a "Stats" section with a table showing Best Run, Avg Last 5, TimeToLevel, and TimeTo. At the bottom is a table with columns RunNo, Date, Time, Xp, and XpHour. There are also buttons for "OCR" and "Load screens", and a checkbox for "Always check the OCR of the Screenshots".

| RunNo | Date | Time | Xp | XpHour |

Extra

If the OCR fails and can't read the screenshot or you check the checkbox "Always Check the OCR of the Screenshots", this form opens:

Please fix the OCR Scanning! Something was not scanned correct!

Level 60 (274) Experience: 27,347,596 / 524,280,000

Start XP 27.347.596 PLVL 274

Level 60 (274) Experience: 47,653,645 / 524,280,000

End XP 47.653.64\$ PLVL 274

Ok

Here you then can manually check and correct the "Scanned" values of the XP and Paragon level. Typical errors are invalid chars like \$.

There is automatically made a small cropped copy of the XP Information, and this is placed here:

//YourDocumentsFolder/Diablo III/Monitor

This folder also contains the file Stats.txt, where all the values from each run is saved.

You can manually test the OCR function with the button "OCR" and select a file from the Monitor folder, to see what comes back from the OCR.

Please donate if you like the program =)
